Re: Revised Reclamation Surety Estimate, Umetco Minerals Corporation (Umetco),
Calliham Mine M/037/023, San Juan County, Utah

Dear Mr. Barnett:

Thank you for the revised reclamation surety estimate for the Calliham Mine received on April 29, 1994. A new surety amount of \$39,400 (in 1999 dollars) is acceptable to the Division.

In order to present this matter to the Board of Oil, Gas and Mining for approval the Division will need a new surety for the amount of \$39,400, or a rider to the existing surety increasing the amount accordingly. In addition, the Reclamation Contract form sent with our March 28, 1994 letter should be revised to show 20.2 acres of disturbance on page one "Disturbed Area". Page two of the Reclamation Contract should be revised under "Surety Amount" to be \$39,400 and under "Escalation Year" to be 1999. Please make the above revisions to the Reclamation Contract, obtain the appropriate signatures and send the originals to the Division. Once we have the Reclamation Contract and new surety or surety rider, we can present this matter to the Board for their approval.

Please contact me or Wayne Hedberg if you have any questions or require further assistance. Thank you for your efforts in completing this permitting action.

Sincerely,

Anthony A. Gallegos
Reclamation Engineer
